Bosch components for high perfomance motorcycles

Engine management

- 1 Electronic control unit Motronic2 Crankshaft speed sensor
- 3 Camshaft speed sensor
- 4 Knock sensor

Fuel supply and injection

- 5 Electric fuel pump and pressure regulator
- 6 Fuel injector

Air management

- 7 Electronic throttle body
- Temperature sensor
- 9 Canister purge valve
- 10 Manifold air-pressure and temperature sensor

Ignition

11 Spark plug

Exhaust gas treatment

12 Lambda sensor

Safety

- 13 MSC hydraulic unit with attached control unit
- 14 Inertial measurement unit
- 15 Wheel-speed sensor

Infotainment/connectivity

- 16 Connectivity control unit
- 17 Integrated connectivity cluster
- 18 Smartphone integration
